

J. C. HIGGINS MODEL 60 GAS-OPERATED SHOTGUN WITH "POSITIVE POWER"

Above is a sketch, showing the new "Positive Power" cylinder spring design. The operation of the gun is the same as pictured in the booklet but the action of the multiple springs on the cylinder plus the new action spring is the positive control.

Below is a list of the four (4) parts which are different from but interchangeable with guns using a coil spring on the cylinder.

Part No.	Part Name
733	Action Spring
734	Cartridge Lifter Spring
735	Wavy Spring, (8) to a set
736	Spacer Washer, (3) to a set

Please refer to booklet for proper cleaning instructions.
